JULY SPOTLIGHT

WORLD'S LONGEST HYDROGEN POWERED TRAIN

EDITOR NOTE

Welcome to the July edition of the Reynold India Newsletter. This month, we celebrate innovation, teamwork, and the dedication of our employees. From highlighting the world's longest hydrogen train to recognizing birthdays, work anniversaries, and outstanding attendance, every achievement reflects our commitment to excellence. Thank you to our employees, customers, and partners for being an integral part of our journey toward a stronger and more sustainable future.

INDIA'S FIRST HYDROGEN TRAIN

FLAGGED OFF!

BY PRIME MINISTER, NARENDRA MODI

**Low temperature hydrogen
chiller by Reynold**

Reynold India has proudly supplied the **Hydrogen Cooling System**, enabling safe and efficient hydrogen usage in the train.

BEST ATTENDANCE OF THE MONTH

Shyam sunder shukla

A big thank you for your consistent attendance and punctuality. Your dedication to your work and team is truly appreciated. Keep up the fantastic work!

DID YOU KNOW?

**COUNTRY'S FIRST HYDROGEN
POWERED TRAIN TO COVER 89 KM
FROM JIND TO SONIPAT IN 2 HOURS**

India's first hydrogen powered train was flagged off on 17 July 2026, by our Prime Minister, Mr. Narendra Modi. Marking a major milestone in green rail transport, the train will run between Jind and Sonipat in Haryana, covering 89 km with zero-emission hydrogen fuel cell technology, reinforcing India's push towards sustainable and future-ready transportation. Reynold is proud to design and install the low-temperature hydrogen cooling system, for safe and effective refueling of hydrogen in the engine of this train, since hydrogen is a highly explosive gas.

THANK YOU
