

APRIL 2020

# NEWSLETTER

Reynold India Pvt. Ltd.

Dear  
Esteemed Customers, Colleagues and Associates,

Today we are facing an unprecedented situation globally, which none of us have faced in our lifetime and hope that we never have to face again. Corona virus, has changed the way we live, work and conduct our day-to-day responsibilities.

In our endeavor to join the war against this virus, we are strictly following the government directive of total LOCKDOWN. To ensure the safety of Reynold Family members and the community as a whole, we have shut down three of our factories and all offices across the country. We have instructed our colleagues not to travel and to work from home until **15 April 2020**.

We will therefore request you to kindly understand and support this uncertainty. We sincerely value our association with you and as soon as things are back to normal, we will make our best efforts to fulfill our promise to you.

We continue to monitor the rapidly evolving situation and will be able to convey the next steps forward after **15 April 2020**, when the current directive from the government ends.

In the meantime, stay safe!

**We Can Fight Against Corona  
Virus With your Support**
