

June' 2019

TOPIC ONE

*Reynold India has successfully entered in modular Cold Chain segment with indoor and outdoor units for small cold rooms*

TOPIC TWO

*Reynold chiller model portfolio comes with a great variety of options and special equipment for the exact process cooling. The configuration options cover various applications to select the required equipment package specifically for the respective customer demands and customized for the specific application.*

TOPIC THREE

*Reynold India Pvt. Ltd. has successfully commissioned 3 VFD based water cooled chillers with CFC free refrigerant, for Pet molding and for Blown Film plant. These chillers are highly efficient and a low payback period.*

What Makes Us Different?

- *We have the most professional & technically sound infrastructure in India and several international partners.*
- *We introduce new international quality engineering & technology in our equipment every year.*
- *We have a 3-step quality control check before dispatching any equipment from our factory premises.*

KEY UPDATE

*We use world class and internationally branded spares parts. Which has strict quality control and easy fitment & removal.*
